

## Quick Start Guide for School Leaders 2024-2025

Welcome to Navy!

Before using this Quick Start Guide, check out the **Navy Overview** and the **3-Part Educator Collection** of brief videos in the Support Hub on the Navy website. After viewing the videos, use the following information as a brief reference guide. For additional information, please refer to the **Navy Handbook**.

### One Place. Four Report Views.

Administrators have access to the District Standards Performance Report or School Standards Performance Report, depending on their role in Navy. Within the reports, there are four different data views with several filtering options.

**These Navy administrator reports support informed decision-making at the school and district level.**

The four reports are fueled by filters of your choice. You can filter in a variety of ways.

## Filters

Subject is a required filter for all views

By school year

By location

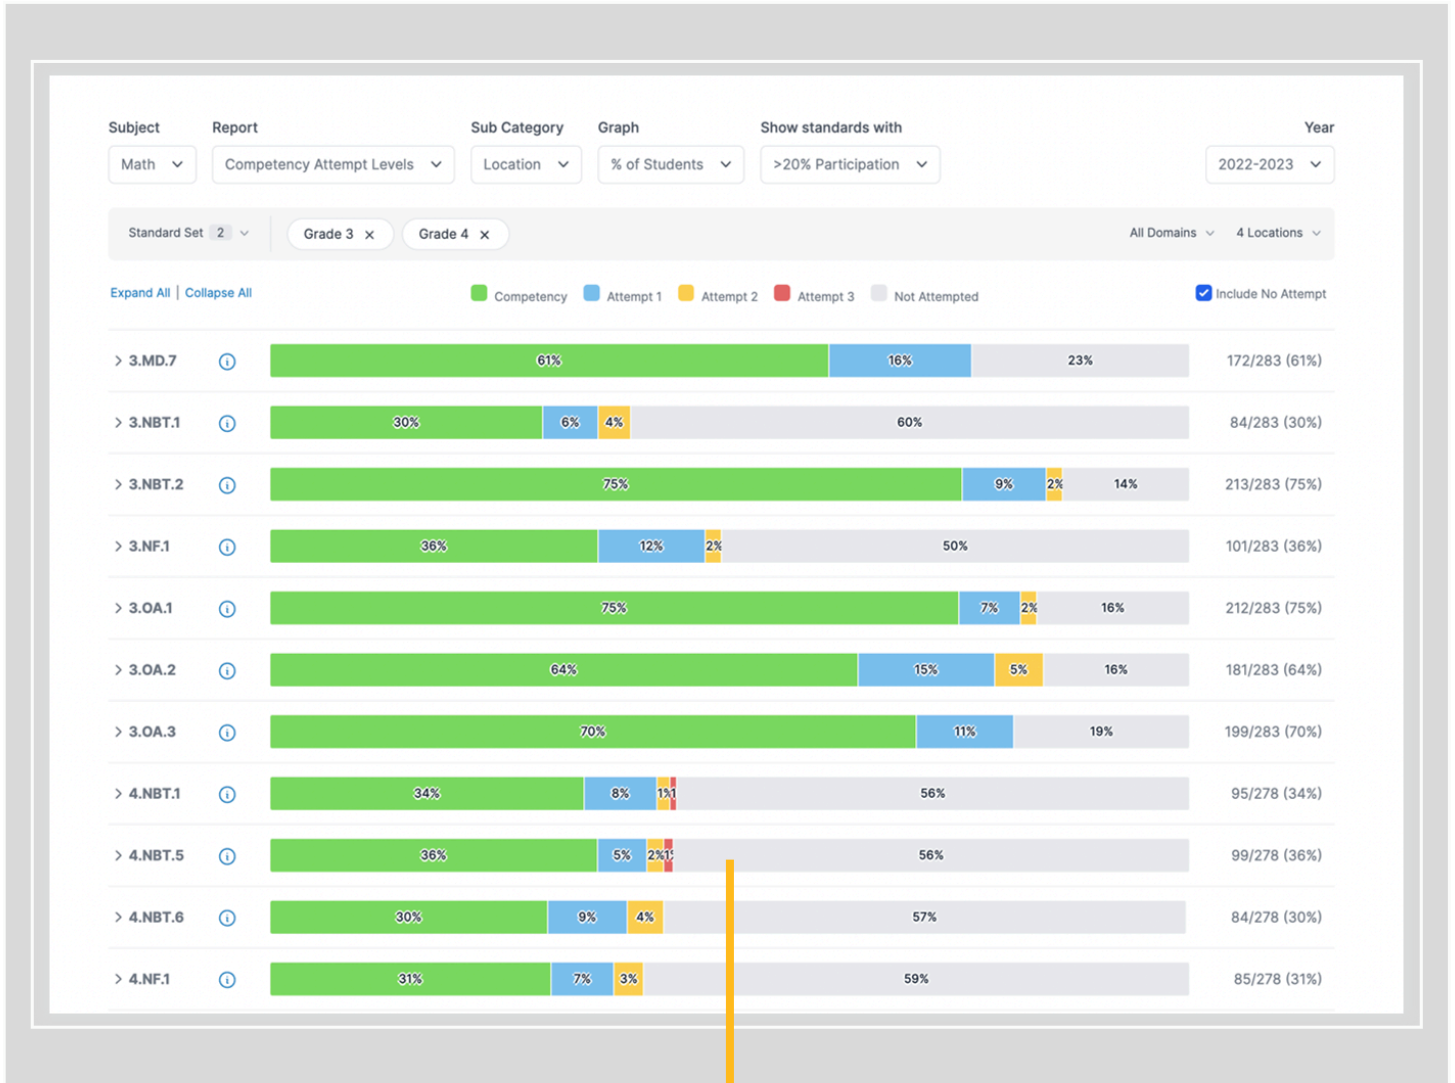

By gender, ELL status, race or ethnicity

By percent or number of students

## Competency Results and Attempts

This report shows the percentage of students that have demonstrated competency on each standard, and how many attempts students who have not yet demonstrated competency have had.

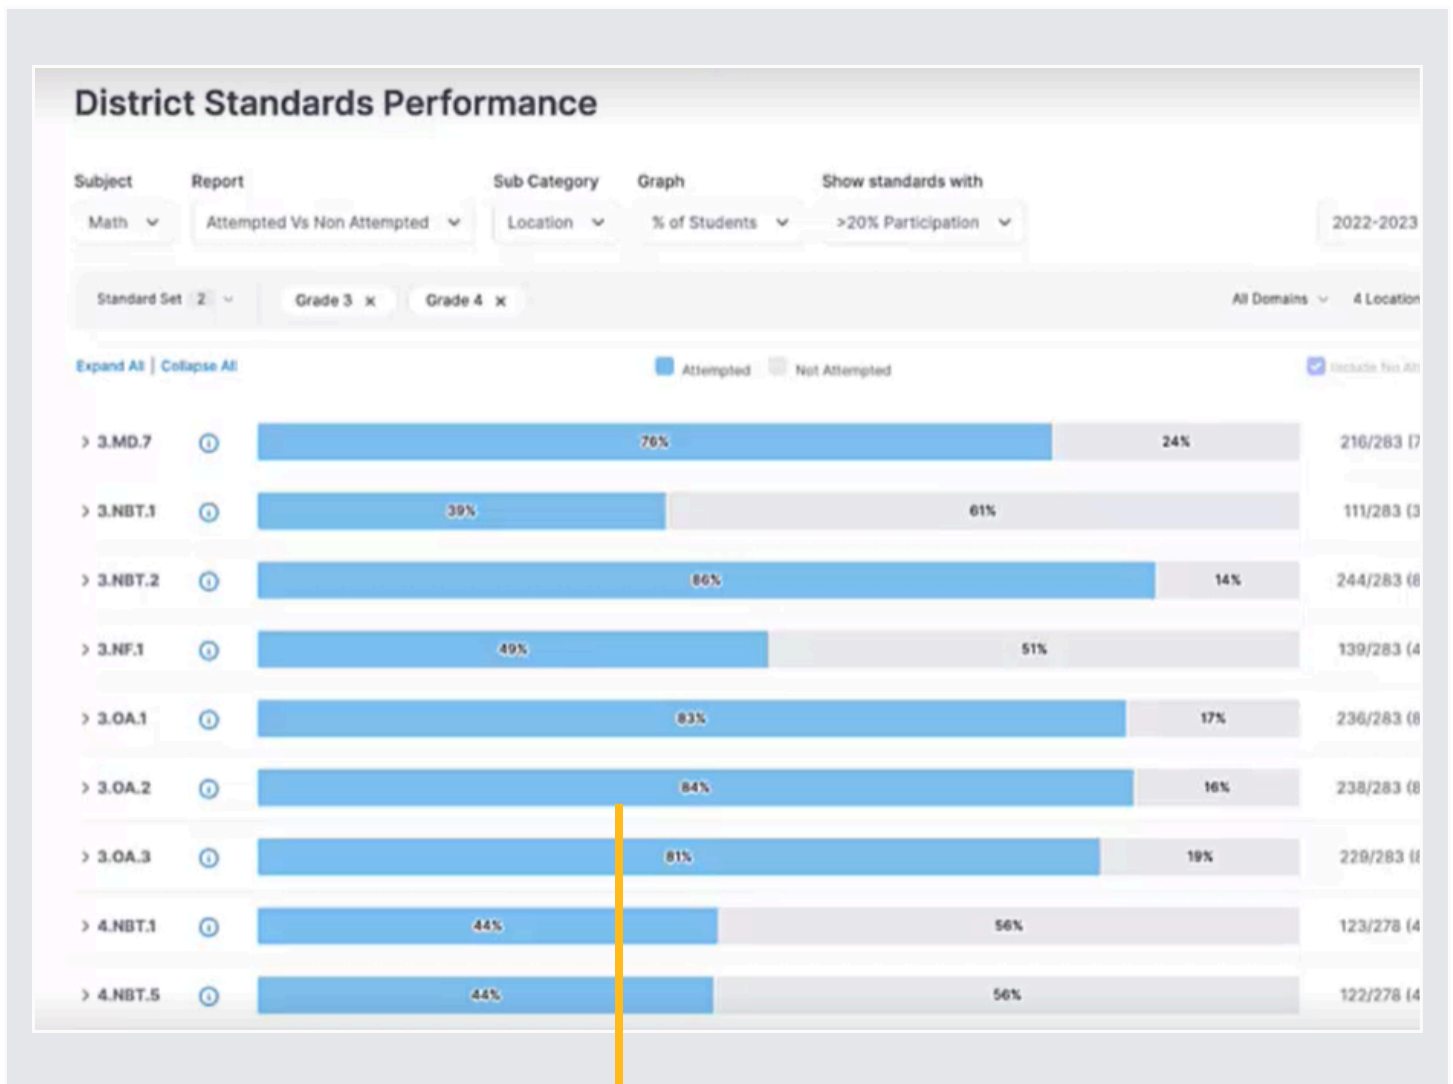

### Looking closely...

#### EXPLANATION for Standard 4.NBT.5 on the Competency Attempt Level Report

- 36% of students have demonstrated competency
- 5% of students have attempted the Competency Check one time and have not demonstrated competency
- 2% of students have attempted the Competency Check two times and have not demonstrated competency
- 1% of students have attempted the Competency Check three times and have not demonstrated competency
- 56% of students have not yet taken the Competency Check

Students who have and have not attempted a Competency Check

Looking closely...

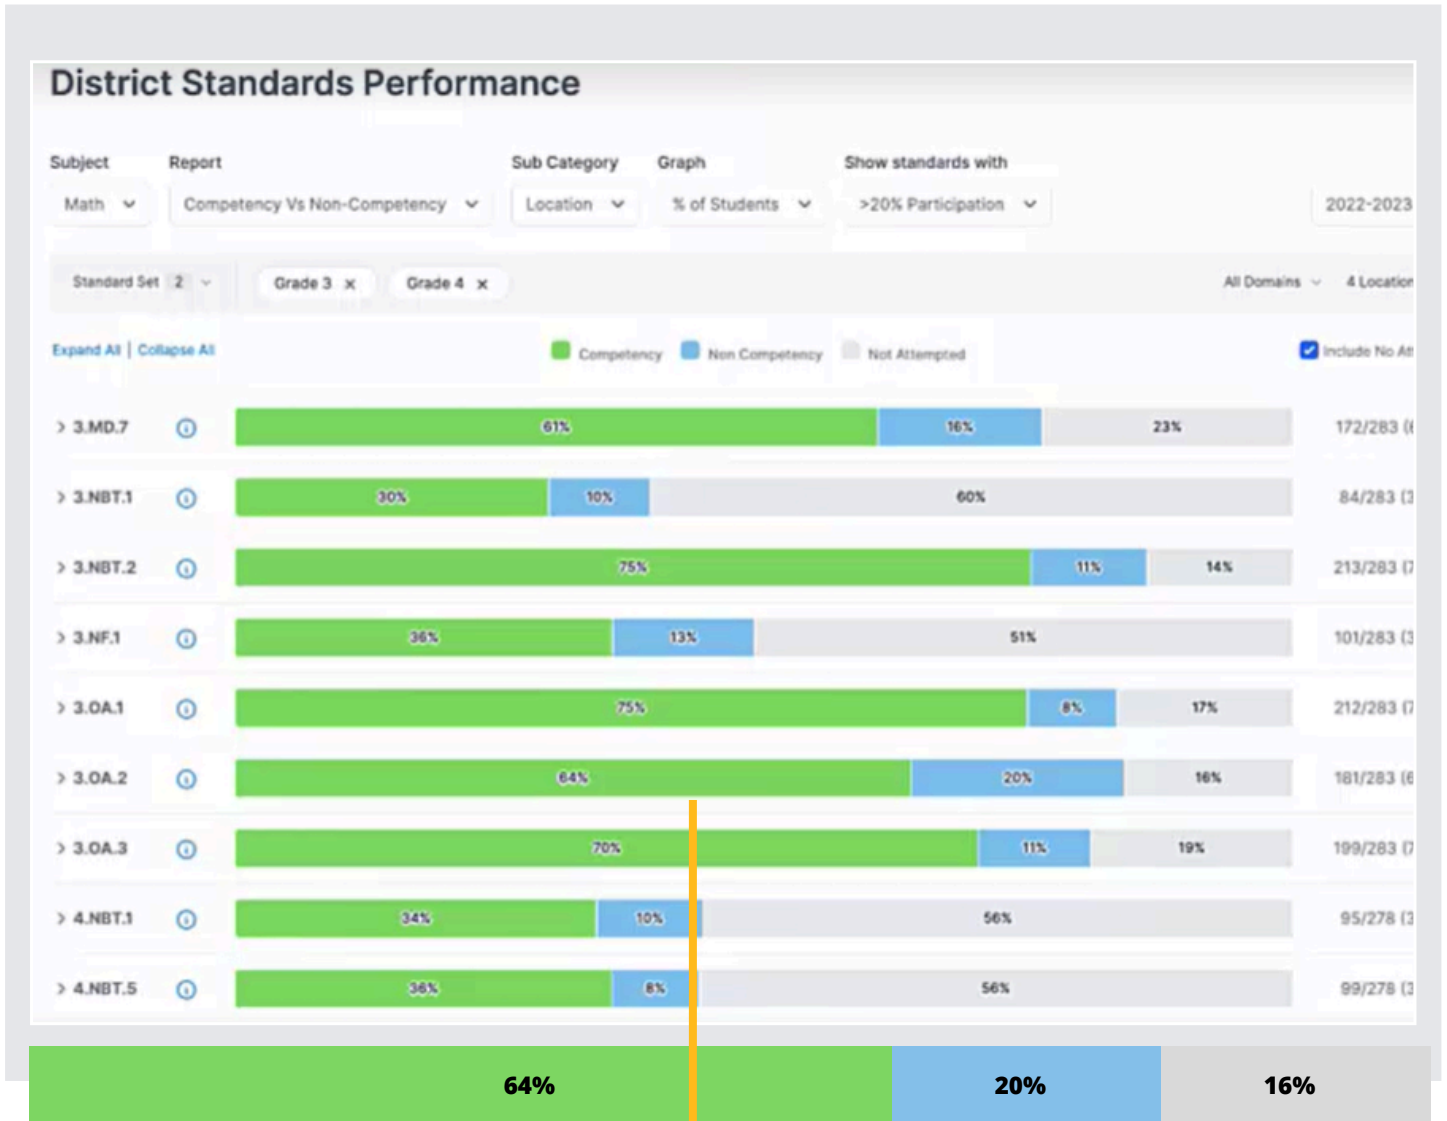

**EXPLANATION for Standard 3.OA.2 on the Attempt vs. Non Attempt Report:**

- 84% of students have attempted the 3.OA.2 Competency Check
- 16% of students have not attempted the Competency Check

## Student Competency Results

This report shows the percentage of students who have demonstrated competency on a standard (regardless of the attempt number) in relation to the percentage of students who have not yet demonstrated competency on the standard.

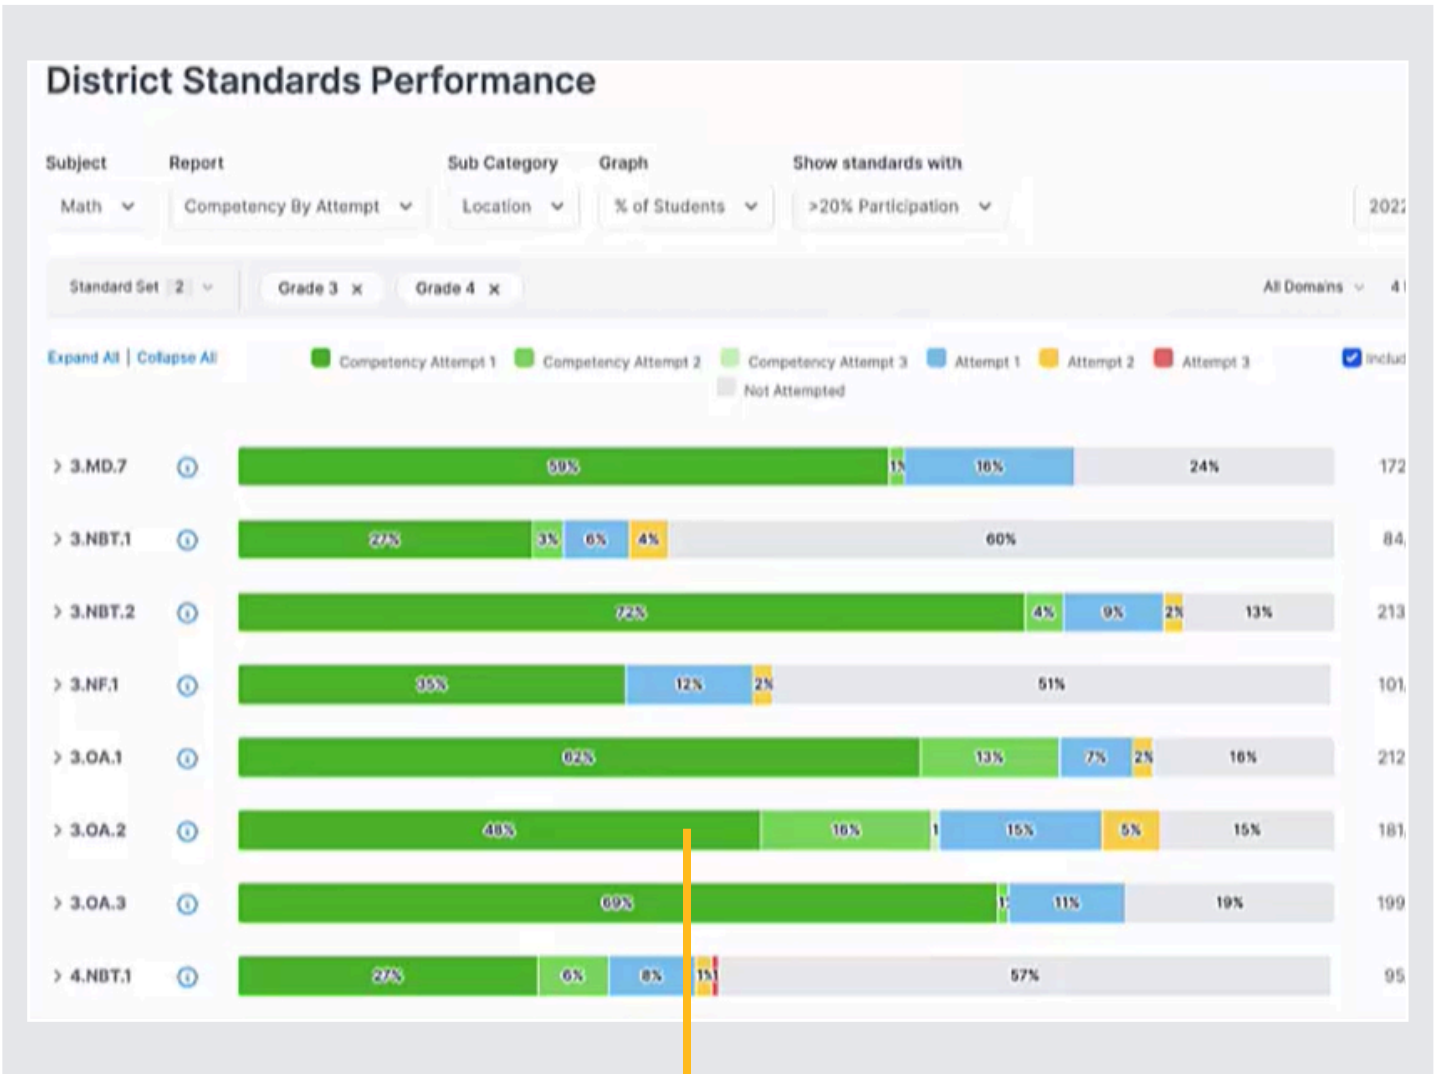

### Looking closely...

**EXPLANATION for Standard 3.OA.2 on the Competency vs. Non-Competency Attempt Report**

- 64% of students have demonstrated competency on standard 3.OA.2
- 20% of students have not yet demonstrated competency on the standard
- 14% of student have not attempted the Competency Check for this standard

## Competency and Non-Competency Results by Attempt

This report shows the percentage of students who have demonstrated competency and who have not yet demonstrated competency on a standard. Within those two classifications (competent, non-competent) the attempt number is indicated.

### Looking closely...

#### EXPLANATION for Standard 3.OA.2 on the Competency by Attempt Report

- **Three Green Sections:** 48% of students demonstrated competency on their first attempt, 16% demonstrated competency on their second attempt, and 1% demonstrated competency on their third attempt
- **Blue:** 15% of students have taken the Competency Check one time and have not yet demonstrated competency
- **Yellow:** 5% of students have taken the Competency Check two times and have not yet demonstrated competency
- **Gray:** 15% of students have not taken a Competency Check on this standard
